**Magicard/PCP: Update Flex/Pridentos/Rio Pro
with missing driver fragments**

Reward-It Ltd

Alternative installation procedure to complete a corrupt or failed install for a Magicard printer when using the standard driver files.

Download/use Bare files from Magicard website: <https://support.magicard.com/solution/network-admin-magicard-ultradriver-bare-files/>

Folder contents:

Go to DEVICES AND PRINTERS.

Right click on the Magicard printer.

Click on Printer properties.

Advance tab.

Driver...

From Disk.

Locate the folder of files downloaded.

Select magu.inf from the Bare Files folder.

The driver should install correctly and display a message once done.

Restart printer and PC.
